

A Place for the “Whole Child”, Cultivating Responsibility and Exploring Learning in a Secure, Encouraging and Loving Environment... *Right Here in Kilmarnock.*

The Northern Neck Montessori is creating a better world, by developing peaceful, independent children.

The five tenets of Montessori are right here: Independent Learning, Mixed Age Grouping, a Challenging Curriculum, Smaller Student/Teacher Ratios and Fostering a Lifelong Love of Learning.

At NNMS children learn to pursue their own interests, make independent decisions and experience the results of self directed actions. They are treated with the respect and dignity of the adult they will become.

Schedule a visit and learn about unlocking each child's unlimited potential.
